How *Layo* Works

Every order you place in India lands safely in your own Layo warehouse locker — ready to combine, pack, and send *whenever you are*.

01

Route Your Packages

Whether you are shopping online or offline, or receiving a personal package, simply use your provided warehouse address as your delivery destination.

02

Categorize & Customize

Ditch the guesswork by simply categorizing your items for a smart, data-driven weight estimate. Don't forget your lightweight "Extras"!

03

Ship, Hold & Combine

Ship immediately, or optionally choose to hold your items to combine them with up to 3 additional incoming packages.

04

Ship & Track

Review your finalized, cost-effective shipment, complete your payment, and track your smart haul right to your doorstep.

About Layo

Shipping shouldn't be a rigid, expensive hurdle. It should adapt to how you actually shop and live.

At Layo, we've built a smart logistics platform designed to give you total control over your shipments. Whether you are routing everyday retail essentials, building a seasonal haul, or sending personal packages from home, we transform complex international shipping into a simple, stress-free experience.

We believe in fair shipping. To keep your deliveries affordable and minimize volumetric weight, we employ strategic packing techniques, which includes vacuum-sealing bulky apparel whenever necessary to save space.

From giving you the power to hold and combine multiple packages to introducing weight-free "Extras," every feature we build is designed to optimize your shipping journey and maximize your value.
